A HOLE IN THE HEART OF TEXAS

-- Steve Goodchild

Chorus:

G G7 C G
There's a hole in the heart of Texas tonight.
D
The stars are too shaken to shine.
G C G
And those who have loved you and lived in your light --
D C G
Their hearts may be breakin' like mine.

C G
I came as a stranger, I came to these shores.
D G G7
Just one among many who came to your door.
C G Em
To share of your kindness and oh, so much more
C D
But I wish we could share one more time.

Chorus

When you opened your door then you opened your heart
To old friends and new friends, and each became part
Of your own special family in music and rhyme
And I wish we could share one more time.

Chorus

They came from all corners, they came here to play.
They came in a heartbeat, they came here to stay.
And they weep at this parting at the close of the day.
And they wish they they could share one more time.

Chorus

I'm proud to have known you and called you my friend.
And each moment shared was a moment well spent.
And I'll cherish your memory till my journey's end.
But I wish we could share one more time.

Repeat Chorus Twice
